

## Instructions to update your cmd\_key to v1 for EOS 2.3-2.8 compatibility

(1)

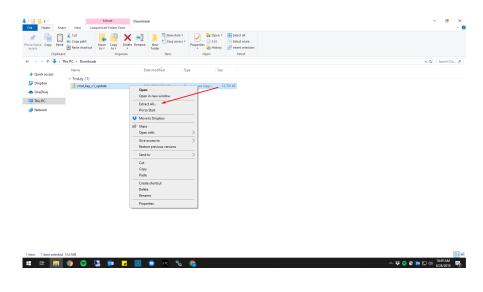

Download ZIP from Website

cmd\_key\_v1\_update.zip

# www.cmd-key.com

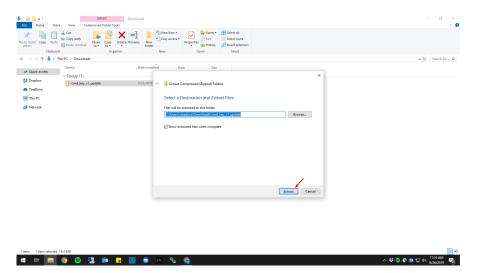

(2)

Right Click on Zip File and click extract all

(3)

Click Extract on bottom of window. Make sure the "Show extracted files when complete" is checked. If not, you will need to open the un-zipped folder manually.

### (4)

Click on Installer

Wait as the instillation process proceeds, Click next/install as required

Restart computer when prompted

Congratulations!!

You have completed the updating process.

You can now close the CHANGEME APP and use your cmd\_key with EOS 2.3-2.8

Please let us know if you had any issues or concerns.

Please note: your cmd\_key is now updated to work with EOS 2.3-2.8. If you want to use it with EOS 2.9, you will have to download and install the v2 update.
