

Instructions to update your cmd_key to v3 for EOS 3.0 compatibility

(1)

Download ZIP from Website

www.cmd-key.com

cmd_key_v3_update.zip

(2)

Right Click on Zip File and click extract all

(3)

Click Extract on bottom of window. Make sure the "Show extracted files when complete" is checked. If not, you will need to open the un-zipped folder manually.

(4)

Click on Installer

Wait as the installation process proceeds, Click **next/install** as required

Restart computer when

(10)

Congratulations!!

You have completed the updating process.

You can now close the CHANGEME APP and use your cmd_key with EOS 3.0

Please let us know if you had any issues or concerns.

Don't forget to order your Stage Key from our website to replace the SCROLL LOCK key on your original cmd_key v1/v2. www.cmd-key.com

Please note: your cmd_key is now updated to work with EOS 3.0. It will still work with EOS 2.9.x, but the STAGE key will not function. If you want to use it with EOS 2.8 or below, you will have to download and install the v1 update.
